

EAA Chapter 776

Fulfilling the Dream of Flight

Do You Want to Learn to Fly?

Have you ever wanted to be a Pilot? Join us 21 May 2022 to explore private flying! FREE introductory Flights for attendees – No strings attached! Limited Availability.

Experimental Aircraft Association Chapter 776 is offering a few select individuals the chance to see what it would take to learn to fly and then to be given a free ride in one of our local member's airplanes at absolutely no cost to the participating attendee. You would be attending a hangar presentation, given a chance to talk to an FAA certified instructor, and then given a ride in a general aviation aircraft. At no time would you be obligated financially or otherwise for this. All we ask is that you be seriously interested in obtaining a Pilot's license.

And since space is limited, we ask that you reserve a slot by contacting us through George Clarke (EAA Ch 776 Director) using flying_start@portouw.com under the subject "EAA Flying Start" by 20 Apr 2022. The program date is **21 May 2022, the start time is 10:00**, and the place is the Bisbee airport. You must have a reservation in order to participate and you must be at least 18 years old.

Please note that in order to attend this event, proof of vaccination or negative PCR test within 72 hours of the event will be required Do not attend this event if you have any of the following: symptoms of COVID-19 (which may include cough, shortness of breath, chills, muscle pain, headache, sore throat, loss of taste or smell, nausea or vomiting, diarrhea, congestion or runny nose not related to allergies); fever of 100.4 degrees Fahrenheit (F) or higher; pending viral test for COVID infection due to symptoms; diagnosis of COVID infection in the prior 10 days; close contact to someone with COVID during the prior 14 days.
